Product Dimensions

(LxWxH)
 28" x 22" x 20.5"(710 x 550 x 520 mm)
 280 lbs. (127 kg)

Shipping Dimensions

(LxWxH)
 31" x 25" x 24"(790 x 630 x 625 mm)
 330 lbs. (150 kg)

FEATURES AND SPECIFICATIONS

- 7-Gauge formed-steel, powder-coated baseplate with provision for table-top mounting and mounting on related workstation products.
- Reconditioning of an actual 2" X 3" X 7", horizontally-split pump. (popular models manufactured by well-known US manufacturers are chosen for industrial relevancy)
- Disassembly, cleaning, priming and painting, using a high-durability urethane coating, or powder coating.
- Color-coding of inner surfaces, seal elements, impellers, and exterior surfaces, using contrasting colors.
- Replacement, plated hardware, where necessary.
- Allows for training in the complete tear-down, inspection, and assembly procedure for the pump.
- Crating for shipment via motor freight.

SERVICE REQUIREMENTS

None

COURSE CONTENT

GENERAL DESCRIPTION

This re-manufactured, full-size industrial pump allows for convenient classroom and laboratory training in the operation, construction, and maintenance of common, horizontally-split, single-stage, double-suction centrifugal pumps.

A common single-stage pump, such as the Goulds 3400 pump, is disassembled, refurbished, painted, and reassembled for training use.

Where necessary, seal components, hardware, and bearings are replaced, allowing for use in maintenance-related training activities. All applicable maintenance activities relating to the pump can be performed.
