

295-715 Backpressure Regulator Cutaway, Oilfield-type

Product Dimensions

(L x W x H)
 13in. x 9in. x 14.5in. (330 x 228 x 368 mm)
 43 lbs. (19.5 kg)

FEATURES AND SPECIFICATIONS

- Sectioning of actual hardware (common valve brands and models such as those from Kimray and Fisher are chosen for industrial relevancy).
- Cleaning, priming, and painting using a high-durability, urethane coating.
- Color-coding of regulator body, internal surfaces, seats, and closure devices, using contrast colors.
- Replacement, plated hardware, where required.
- All seals, and seats shown.
- Welded structural steel base assembly with provision for tabletop mounting.
- Provision for mounting on related DAC bench, workstation and storage rack products.
- Packaging for shipment via motor freight or parcel service.

SERVICE REQUIREMENTS

None

COURSE CONTENT

No dedicated courseware provided.

GENERAL DESCRIPTION

This sectioned industrial regulator allows for valuable and convenient classroom training in the operation, construction, and maintenance of an industrial Backpressure regulator. Through carefully-planned sectioning and color-coding, the complete internal configuration of the regulator is exposed and showcased. Seal features and hardware locations have been retained, allowing for “hands-on” training in maintenance. These regulators, commonly used in oil & gas production applications relating to separators, treaters and other gas production, gathering and distribution applications, would be of interest to those involved in oil & gas production operations training as well as maintenance training.
